

Short CV

Name: Marcel Annegarn

Position: Director General of AENEAS

Email: Marcel.Annegarn@aeneas-office.eu

Marcel Annegarn started his career at Philips Research in 1977 and spent almost 20 years fostering Philips' technological leadership in television and consumer electronics. In 2003, he joined Philips Semiconductors and managed the development department in the consumer cluster, such as DVD, audio, car infotainment, TV, etc.

From 2006 to April 2008, Marcel Annegarn headed the Project Office at Philips Semiconductors, later NXP Semiconductors, responsible for development processes, the creation of development roadmaps for future products, standardisation and export control.

In his capacity as Director General of AENEAS, Marcel Annegarn manages and coordinates activities for Europe's Nanoelectronics R&D performers and their stakeholders in the ENIAC programme. He is based in the CATRENE Office and thus ensures the utmost synergy of the programmes involved.
