

Dr. Gernot S. Pomrenke joined the Air Force Office of Scientific Research (AFOSR) in July 2000 as Program Manager of the Optoelectronics Information Processing and Nanotechnology Programs. His programmatic interests also branch into Terahertz Technology and Quantum Computing. He holds the position as DoD representative to the National Subcommittee on Nanoscale Science, Engineering and Technology (NSET). Prior to arriving at AFOSR, Dr. Pomrenke was located at the National Science Foundation as photonics program director and the Defense Advanced Projects Agency (DARPA) as program manager for the Ultra Electronics Program, one of the key U.S. government nanoelectronics programs to serve as a foundation for the National Nanotechnology Initiative.
